Instead of stopping her hateful rhetoric after J13 Kamala did exactly the opposite by ramping up incitement against Trump calling him fascist & Hitler!!

Removing Trump by any means necessary whether by cheating, jailing or assassinating has always been their strategy hasn't it??

I'm sorry Jackson, Kamala won't answer your question, but I will.

Kamala will continue to allow millions to cross our border and it will cost we taxpayers billions more of our tax dollars if she's allowed to stay in power.

Trump is in more danger now because they can no longer beat him even with election fraud. Harris compares him to Hitler and Biden wants him arrested. Their desperation and fear is palpable.

It seems relevant that the doctor refusing to publish a study that found trans drugs do children no good has previously lobbied to have the minimum age they can be given to kids reduced from 13 to just eight.

Benjamin Ryan  @benryewriter · Oct 23

In 2017, pediatric gender doctor Johanna Olson-Kennedy applied for a change in her NIH grant that would lower the minimum age to put a child on cross-sex hormones from 13 to 8 years old. Today, the NYT reported that she has been sitting on null results from her NIH-funded puberty x.com/4ts_WaveWowist...

We must not publish a study that says we're harming children because people who say we're harming children will use the study as evidence that we're harming children, which might make it difficult for us to continue harming children!

Great clip of @ScottPresler talking about getting conservative leanings groups like the Amish and truckers registered to vote

Why is she using the official residence of the Vice President to launch a political attack?

This is not normal. Nor is it legal.
